

25kW Solar-Powered Container for Oil Platforms

Available for purchase or rental, our mobile off-grid power systems are fully self-contained, harnessing both wind and solar through small scale wind turbines and solar photovoltaics (PV) panels to capture ...

Get detailed specs and pricing for Sunmaygo's solar containers. Compare models, battery options, and calculate ROI. Find the best mobile solar power system for your needs.

Ready to Transition Beyond Diesel? Discover the next generation of mobile, autonomous clean power. MOBISMART integrates solar, fuel cells, and batteries into hybrid systems that deliver where diesel ...

With an experienced R& D team, we are able to design and manufacture solar power pods with superior performance and cost-effectiveness according to the specific needs of our customers.

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

This containerized energy solution combines power, protection, and portability in a compact, scalable format. It is pre-engineered for plug-and-play deployment, reducing installation time and operational ...

Solarabox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

The PFIC25K55P30 is a compact all-in-one solar storage system integrating a 25kW power output, 55kWh energy storage capacity, and 30kWp high-efficiency foldable PV ...

Eventually, our containers will be outfitted with sensors embracing the Internet of Things in the spirit of remote monitoring. Solar-powered offshore containers represent an innovative ...

We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling, Injection Sites, Wellhead Locations and Related Oil and Gas Service Companies.
