

350kW Mobile Energy Storage Battery Cabinet for Construction Sites

Energy Storage Container offers modular, scalable, and reliable storage capacity for renewable, residential, and industrial projects. Integrated Energy Storage Equipped with a built-in battery system ...

Supporting lower power charging and high power discharging, it delivers stable power for critical loads. This makes it ideal for high-demand scenarios such as construction sites and oilfields, ensuring ...

Compatible with photovoltaic (PV) integration, the system enables users to reduce electricity costs through smart energy management. For off-grid and backup applications, the IEB350kWh is also ...

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...

It employs lithium batteries for energy storage, achieving 1P/1C charge/discharge and around 9000 cycles. In addition, the liquid cooled BESS can be deployed at constructions, mining and remote ...

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

The construction site backup energy storage solution employs liquid-cooled battery PACK + liquid-cooled PCS design, which has good heat dissipation effect. It supports long-term 1C rate discharging ...

This modular approach suits large construction sites, remote mining operations, and temporary microgrids. As project power requirements grow, additional containers deploy without modifying ...

Empower your operations with Topband's mobile energy storage system and portable energy storage solutions. Our energy storage cabinets and energy storage battery cabinets deliver ...

Full liquid cooled design and CATL high performance battery cell can meet the continue 1P and 1C charge and discharge Independent battery group access with separate battery bus
