

500kW Photovoltaic Energy Storage Container for Data Centers

A high-performance, all-in-one, containerized battery energy storage system developed by Sunark, provides C& I users with the intelligent and reliable solution to optimize energy efficiency and resilience.

With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all-in-one container design simplifies deployment, reduces installation time, ...

With its robust features and exceptional scalability, the BESS Container 500kW 2MWh 40FT Energy Storage System Solution is the ideal choice for secure, efficient, and large-scale energy management.

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...

Ideal for factories, microgrids, and data centers. The 500kW Three-Phase Hybrid PV+ESS System is a large-scale solar + energy storage solution designed for high-demand industrial and commercial ...

This 500kW / 2MWh BESS container integrates lithium battery racks, PCS, BMS, EMS, and safety systems in a 40FT container for fast deployment, stable operation, and scalable energy storage.

Built with high-energy-density battery cells and a compact all-in-one containerized architecture, it delivers reliable, efficient, and scalable energy storage for a wide range of scenarios.

Our 500 kW - 1 MW containerized commercial & industrial (C& I) energy storage system is engineered for large-scale applications such as factories, industrial parks, data centers, and microgrids.

They can be configured to match the required power and capacity requirements of client"s application. Our containerised energy storage system (BESS) is the perfect solution for large-scale ...

High-capacity solar storage system cuts energy costs while ensuring uninterrupted production with clean power integration. Maximize ROI with our turnkey 500KW PV storage system, and the high-efficiency ...
