

60kWh outdoor energy storage unit at Astana train station

In March 1962, Akmolinsk station was renamed Tselinograd station. The station was considered one of the largest on the Kazakhstan railway. More than 20 pairs of passenger trains passed through it ...

Emerging from the vast landscape of Astana, located on the main axis, it connects the city to the other cities of Kazakhstan, and creates a symbolic link between people and country.

Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.

As renewable energy adoption accelerates globally, the Astana Energy Storage Power Station stands as a landmark project using vanadium liquid flow batteries to stabilize Kazakhstan's grid.

The strategic agreement involves establishing local manufacturing facilities for wind turbines and energy storage systems in Kazakhstan, aiming to enhance the country's renewable energy capacity and ...

By implementing smart energy storage, Astana businesses aren't just cutting costs - they're powering Kazakhstan's transition to a sustainable energy future. The question isn't whether to adopt this ...

ACWA Power has signed a partnership agreement to develop a large-scale wind energy and battery storage project in Kazakhstan with the country's ministry of energy and a sovereign wealth fund. [pdf]

Astana's extreme continental climate - with temperatures swinging from -40°C to $+35^{\circ}\text{C}$ - demands outdoor energy storage systems that outperform conventional solutions.

This product is a new energy storage box (multi-purpose backup power station), built-in high-capacity LiFePO₄ pouch cells, combined with a high-strength aluminum alloy shell, is a rechargeable power ...

The liquid-cooled energy storage system integrates the energy storage converter, high-voltage control box, water cooling system, fire safety system, and 8 liquid-cooled battery packs into one unit. [pdf]
