

All in one solar power system in Uk

What is an all-in-one solar system?

The All-in-One system is capable of supplying an additional 7.2kW of peak power to the household. This is on top of any solar-generated electricity operating primarily as an on-grid solution. By using the kit, homeowners can achieve significant savings on their energy bill while drastically reducing their carbon emissions.

What is the cheapest solar battery storage solution in the UK?

What's more, the Lifelynk Series is available at an amazingly low price. Comparable to the cost of a new smartphone, it's the most affordable solar battery storage solution in the UK. With Lifelynk, Sunsynk has made it possible for more households across the country to generate their clean electricity for less.

Who are contact solar?

At Contact Solar, we are dedicated to helping homes and businesses across the UK embrace the benefits of solar power. We're excited to announce the Sunsynk Lifelynk Series: a brand-new product that promises to make solar PV systems more accessible for all.

Which solar inverter should I buy?

For those with smaller energy usage levels, the Lifelynk S is the perfect place to start. It features a 2.5kW inverter and 2kWh battery capacity - ideal for basic domestic solar setups. Weighing only 36kg and measuring 701 x 544 x 105mm, the Lifelynk S is the most compact model in the range.
