This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are ...

Can store excess electricity generated by renewable energy sources such as solar or wind farms, allowing it to be used at a later time when these sources are not available.

This cabinet houses high-capacity lithium or LiFePO4 battery modules, BMS (Battery Management System), and optional inverters, all within a weatherproof and secure enclosure.

The system effectively overcomes the disadvantages of limited-service locations and unstable power supply caused by seasonal barriers in traditional express cabinets.
