

How many electric cars from China arrive in Argentina?

5,000 electric cars from China arrive in Argentina, a symbol of Milei's relaxation on imports. (AP/Victor R. Caivano) The BYD Changzhou car carrier is docked at Terminal Zarate in the Buenos Aires province of Argentina, Tuesday, Jan. 20, 2026, where hybrid and electric vehicles shipped from China are parked next to the ship.

Are Chinese EVs coming to Buenos Aires?

But the sight of so many new Chinese EVs gliding onto a muddy river bank in Buenos Aires province was unprecedented for Argentina, its crisis-stricken economy dominated for years by a left-wing populist movement that protected local industry with stiff tariffs and import restrictions.

Is Argentina ready for a wave of electric cars?

But Argentina is still far behind its neighbors in developing its EV industry, said Pablo Naya, the creator of Sero Electric, Argentina's only domestic electric car manufacturer. The country's aging power grid is nowhere near ready for a wave of electric cars to strain it en masse, he said.
