

Damascus electric vehicles

What is Damascus Corporation?

Damascus Corporation is a company with over 40 years of experience in the Underground Mining & Industrial Vehicle Business. Here at Damascus Corporation, we help you get around underground and have refined our manufacturing process to ensure we can successfully achieve that for our customers at a fair cost.

Are electric vehicles a future for the Middle East?

Governments, businesses, and consumers are all working in tandem to create a more sustainable tomorrow, powered by electric vehicles. As governments provide incentives, businesses develop new technologies, and consumers embrace change, the Middle East is moving towards a future where sustainable mobility is a reality.

Do EVs need a charging infrastructure in the Middle East?

A robust charging infrastructure is essential for the widespread use of EVs. In the Middle East, governments are actively working to create a network of charging stations that will make EVs more accessible and convenient for drivers.

Are Middle Eastern consumers interested in EVs?

Market research shows that Middle Eastern consumers are drawn to EVs that are futuristic looking, mechanically advanced, and filled to the brim with digital innovations. A large portion of consumers in the region have always shown an affinity towards sophistication in their vehicles.
