Data Center Battery Cabinet Three-Phase OEM

With flexible installation design, the UPS and battery cabinets can be configured into a tower, side-by-side, or integrated within a rack to satisfy various space needs and maximize the use of the data center.

The Eaton 93PM UPS is the perfect three-phase white or gray space solution for modern data centers. The 93PM is compatible with l ithium-ion UPS batteries, which are 40 percent smaller than VRLA ...

The Eaton 93PM UPS is the perfect three-phase white or gray space solution for modern data centers. The 93PM is compatible with lithium-ion UPS batteries, which are 40 percent smaller than VRLA ...

Housed in a tough enclosure, our solution provides reliable, lightweight, and compact energy storage for uninterruptible power supply (UPS) systems. Battery cabinets are designed to hold batteries used to ...

Introducing a next-generation modular and transformerless UPS design, Vertiv(TM) Liebert® APM2, a feature-rich high-density UPS that brings exceptional and innovative features for mission-critical ...

State of Health (SoH) Vertiv EnergyCore tracks battery health across all levels, enabling smarter maintenance and longer battery life.

CyberPower 3-Phase Modular UPS Battery Cabinets are designed to accommodate several battery modules and can be configured into tower, side-by-side formations, or easily mounted in a rack.

Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. They are designed to accommodate ...

Highly efficient, scalable 200 to 500 kVA/kW 3-phase UPS featuring modular, redundant design and low TCO for medium and large data centers and mission critical environments.

Providing safe, reliable, high-power, the BlueRack(TM) 250 is designed to mate with all data center type 3-phase UPS manufacturers equipment, as well as numerous other critical power systems.
