

What is the economy of Djibouti?

The economy of Djibouti is derived in large part from its strategic location on the Red Sea. Djibouti is mostly barren, with little development in the agricultural and industrial sectors. The country has a harsh climate, a largely unskilled labour force, and limited natural resources.

What was the state of Djibouti's economy in 2022?

Djibouti's economy, which had rebounded from the global health crisis, was hit by the consequences of the war in Ukraine, the conflict in Ethiopia, and trade disruptions in China. Economic growth slowed down from 4.8% GDP in 2021 to 2.5% GDP in 2022, according to the IMF's latest estimates.

What is the potential for development in the energy sector in Djibouti?

The potential for development in Djibouti's energy sector remains high. The page below gives an overview of the energy sector in Djibouti.

Why is there a fishing industry in Djibouti?

Due to the importance of water as a natural resource in Djibouti, the government has invested heavily in developing the country's fishing industry to increase the sector's contribution to the economy. Water in Djibouti is mainly used for irrigation and for livestock.
