

Energy storage container mobile house space capsule

What is a space capsule house?

The Space Capsule House is a futuristic,eco-friendly dwelling inspired by the compact efficiency of astronaut living quarters. Constructed with advanced,lightweight materials,it features a sleek,modular design that maximizes interior space through innovative,multi-functional furniture and built-in storage.

What types of modular space capsule houses are available?

Besides the E5, E6, and E7 models, we also offer a diverse range of modular space capsule houses designed for various applications such as eco-tourism, glamping, mobile accommodation, and commercial use. These units are fully customizable and can be tailored to meet different climate conditions and usage scenarios.

What makes a capsule home sustainable?

Solar panels and energy-efficient systems underscore its sustainability. Designed for easy transport and assembly,these capsule homes offer a flexible living solution for modern,conscious individuals who value both mobility and style in the pursuit of a smaller ecological footprint and a novel living experience.

What makes our space capsules & Apple cabins unique?

Our Space Capsules and Apple Cabins stand out with their unique designs,offering a fresh living experience. Using high-quality materials and adhering to international standards to ensure durability and safety. Our products are designed with eco-friendliness in mind,using energy-saving technologies to minimize environmental impact.
