

# Haide New Energy wins bid for energy storage Datang

[Gansu Yumen Independent Energy Storage Project EPC Bid Winners Announced] On December 19, 2025, the bidding candidates for the EPC general contracting project of Datang ...

On September 20th, China Datang Group announced the bid candidates for its 2024-2025 lithium iron phosphate battery energy storage systems. Ultimately, five enterprises were ...

The increasing adoption and growing storage capacities of sodium-ion batteries indicate their transition from laboratory research to market viability, marking a significant milestone in ...

The commissioning of the Datang Hubei project not only demonstrates the practical application potential of sodium-ion battery energy storage technology, but also points the way for the ...

[The world's largest sodium-ion battery energy storage system is put into operation] SMM learned from the official WeChat of Zhongke Haina that on June 30, the first phase of the Datang ...

Hohhot announced the allocation results of independent energy storage projects from 2026 to 2027: a total of 8 projects with a total scale of 2.5G W/9.52 GWh, and central enterprises and private ...

As the photovoltaic (PV) industry continues to evolve, advancements in Haide new energy storage wins the bid have become critical to optimizing the utilization of renewable energy sources.

According to the data, in September, more than 100 energy storage bidding and bidding projects were awarded, and the scale of energy storage systems and EPC (including equipment) ...

By the end of 2023, it successfully delivered sodium-ion energy storage cells in batches to the Southern Power Grid, ensuring that the world's first 10 MWh sodium-ion battery energy storage...

Harbin Electric won the bid for the heat storage, heat exchange module-heat exchanger, and heat transfer oil storage tank of the Three Gorges Group Ulanqab Integration of Source, Network, Load ...
