

# High speed surgical handpiece

What are the best surgical handpieces?

According to Sabra Dental Products, the Sabra Power 45 series handpiece is the newest handpiece available in their line. Sabra introduced this handpiece after the first surgical high speed handpieces were introduced over 30 years ago.

What makes W&H high-speed surgical handpieces a good choice?

W&H high-speed surgical handpieces with mini LED+ possess high luminosity values, and thus also a great light output. With a colour rendering index greater than 90, W&H surgical handpieces with mini LED+ show natural-appearing red tones during oral surgery.

What are W&H surgical handpieces?

To meet this challenge a number of surgical handpieces are required. Therefore W&H has developed a series of straight and angled handpieces for oral and maxillofacial surgery and implantology. To enable thorough cleaning to be carried out, the handpieces can be easily and quickly dismantled and re-assembled - without the use of tools.

Why should you choose W&H angled and straight surgical handpieces?

The new ergonomic design of W&H angled and straight surgical handpieces is perfectly suited to challenges of different surgical applications and prevents fatigue. The unique coating protects your electric handpieces for oral surgery from scratches and damage.

The slim high-speed handpieces from NOUVAG are available in various lengths and both straight and angled designs. With their optimal balance and low-vibration design, they enable fatigue-free work in ...
