

Is the photovoltaic panel scam a fraud

Are solar panels a scam?

Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. Making your own solar energy this way saves you money on your utility bills. That's not to say solar panel scams aren't real--just that the technology itself is not the problem.

What is solar panel fraud?

Solar panel fraud occurs when unscrupulous companies or individuals deceive homeowners through misleading sales practices, hidden fees, and false promises about solar energy systems. These deceptive practices have multiplied as the residential solar energy industry has expanded significantly over the past decade.

Is home solar a scam?

Scams are a blight on the solar industry, but that doesn't mean home solar itself is a scam. Here are some tricks to avoiding solar scams, finding reputable installers, and enjoying the benefits of home solar. If you only listen to one sales pitch, it can be easy to get sucked into a scam.
