What Is Lithium-Ion Cell Balancing? How to Balance Lithium Batteries What Is Top Balancing? What Is Bottom Balancing? How to Bottom Balance A Lithium Battery Pack How to Top Balance A Lithium Battery Pack There are several ways this can be achieved. Batteries can be top-balanced or bottom-balanced. They can be actively balanced or passively balanced. The quickest way to balance cells is by burning off the excess energy. For example, if all of your cell groups but one are at 4.05 volts and the high cell group is at 4.2 volts, it will be much quicker ...
