

Longi photovoltaic panel packaging

Brand Name Longi Model Number LR7-54HVB 475-495W Solar cell 182*182mm, Grade A Cell Orientation 108 (6*18) Junction Box IP68 Rated Frame Black anodized aluminum alloy frame Weight 21.6kg Packaging ...

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

Longi solar panels undergo rigorous testing and quality control during the entire manufacturing process, from the production of silicon wafers to the assembly of solar modules.

In conclusion, LONGi adheres to the proven reliability of the landscape vertical packaging solution for its Hi-MO5 modules, this both minimizing sea transportation costs and making unpacking and installation more ...

In conclusion, LONGi adheres to the proven reliability of the landscape vertical packaging solution for its Hi-MO 5 modules, this both minimizing sea transportation costs and making ...

Part C. Package Process The following pictures of the module and package material are only for reference to understand the packaging process in general.

This document provides packaging instructions for LONGi Solar Hi-MO 6 LR5-54xx-xxx series modules with frames. It includes basic module and pallet dimensions and weights, as well as ...

As a major photovoltaic manufacturer, LONGi strives to improve the efficiency of electricity to facilitate the energy transition of China, while exploring its own green low-carbon ...
