

Modular Battery Cabinet for Edge Computing Three-Phase

The Schneider Electric Galaxy VS is a highly efficient, easy-to-deploy, modular three-phase uninterruptible power supply ideal for critical IT and industrial facilities.

The CyberPower BCT6L9N225 3-Phase Modular UPS Battery Cabinet can hold up to 12 battery modules (BM120V30ATY). These 6-layer units can be configured as stand-alone cabinets, rack ...

The CyberPower BCT3L9N125 3-Phase Modular UPS Battery Cabinet can hold up to 6 battery modules (BM120V30ATY). These 3-layer units can be configured as stand-alone cabinets, rack mounted, or ...

With flexible installation design, the UPS and battery cabinets can be configured into a tower, side-by-side, or integrated within a rack to satisfy various space needs and maximize the use of the data center.

The Xtreme Power M90Ci-6S delivers modular, high-efficiency three-phase power protection for data centers, industrial automation, and edge-computing environments operating at 400/230 V.

Galaxy VS is a highly efficient, modular, simple-to-deploy 3-phase UPS that delivers top performance to edge, small, and medium data centers, as well as critical infrastructure in commercial and industrial ...

The Eaton BladeUPS is a three-phase, scalable and modular UPS for high density computing environments, including virtualized or machine learning IT applications.

The Schneider Electric™ exclusive Galaxy Lithium-ion Battery Cabinets for 3-phase UPSs are innovative energy storage solutions for data centers, industrial processes, and critical infrastructures.

This intelligent UPS has scalable battery runtimes, output distribution options, a high power factor and an optional maintenance bypass cabinet. It is easy to install and operate.
