

Server Rack Temperature and Humidity Control Distributor

Rack unit provides 5Vdc and 12dc power supply for external all sensors and detectors. Large dual line LCD for simultaneous display of temperature, humidity is an advantage. Parameters are easy ...

Premium 19" rack-mounted temperature and humidity monitor. Ethernet, relay, and conversion to Humidex. Suitable for online monitoring.

At smaller sites, we've had decent results using Ubiquiti's UniFi sensors or even basic Raspberry Pi rigs with temp/humidity sensors and some custom scripts for alerting via Slack or email.

Supports 2 Temperature and humidity sensors, a Water sensor, and 4 Dry contact closure door sensors. The Server Technology EMCU-1-1C is an IP-based solution for monitoring environmental ...

Combined temperature (-10°C to +80°C) and humidity probe for IT environment (1-Wire bus). Fits into a 19" or 10" cabinet (1U size). 2 RJ11 connectors for daisy chaining the sensors, RJ11 cable included.

Raritan SmartSensors are a rack mount solution to monitor environmental conditions, including; temperature, humidity, airflow, air pressure, water/leaks, contact closures, proximity detection, ...

Maintain Optimal Temperature: Measuring the temperature at multiple height levels of the rack can give an early indication of a potential temperature problem. Vutlan monitoring units will provide early ...

Whether you're managing a colocation, micro data center, or a small server room's white space, our SmartSensors are the perfect solution for efficient operation management.

Keep an eye on remote conditions in critical areas for environmental factors including temperature, humidity, airflow, door position, power and much more. Get alerts when user-defined thresholds are ...

World Cord Sets, Inc is a leading distributor in the power and data industry, specializing in data center applications. They stock a huge selection of P-Lock power cables to mate perfectly with your Server ...
