

# Signing a contract for rural solar panels

What is a solar power contract?

A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each.

What are the different types of solar panel agreements & proposals?

There are different types of solar panel agreements and proposals available. The one you use will depend on a few different factors. These factors include whether you lease or buy solar panels and whether the contract is for a home, business, or even a large development. A power purchase agreement or PPA is similar to a solar lease agreement.
