

Solar support light pole cage

What can HAPCO solar lighting poles power?

In addition to luminaires, Hapco Solar Lighting Poles can be designed to power accessories such as cameras, sensors, wi-fi hotspots and safety help buttons utilized by today's Smart Cities. **WHY IS OUR CURVED GLASS DESIGN BETTER?**

How do you attach a light to a concrete cage?

Once the concrete is dry, attach the pole (already assembled) to the bolts at the top of the cage and tighten the nuts. Utilise the hinge to angle the pole to 90°; and mount your lighting unit on top using the bolts provided, which screw into the light to secure it.

What is the most advanced solar lighting pole?

Years of development and innovation have led to the most advanced solar lighting pole in the market. Light-years ahead in solar technology, Hapco's Solar Lighting Pole is completely off-grid and works autonomously, using sustainable solar power.

How many lights can be mounted on a pole?

The pole can accommodate a single mounted lighting unit, or two at 180° angles by incorporating our custom U-Bracket AL-2U-60MN, for full radial coverage.
