

The largest wholesale market for photovoltaic panels

What is the global solar PV panels market size?

The global solar PV panels market size was estimated at USD 170.25 billion in 2023 and is projected to reach USD 287.13 billion by 2030, growing at a compound annual growth rate (CAGR) of 7.7% from 2024 to 2030.

Which region has the largest solar PV panels market in 2024?

The North America has firmly established itself as the dominant region in the global solar PV panels market with 32.2% share in 2024. With its large solar installations and supportive policies, the U.S. market has seen tremendous growth over the past decade.

What will drive the growth of solar PV panels industry?

Growing demand for renewables-based clean electricity coupled with government policies, tax rebates, and incentives to install solar panels is expected to drive the growth of solar PV panels industry in the coming years. Asia Pacific held the largest market share of over 54.0% in 2023.

Why is the solar photovoltaic (PV) module market growing?

Since 2021, the solar photovoltaic (PV) modules market has experienced explosive growth, driven predominantly by the aggressive expansion of Chinese manufacturers, who maintain their dominance of global shipments.

Discover all statistics and data on Global solar PV supply chain now on statista !

Since 2021, the solar PV modules market has surged, mainly due to the rapid expansion of Chinese manufacturers. This article delves into the latest market dynamics, production capacity ...

Growing demand for renewables-based clean electricity coupled with government policies, tax rebates, and incentives to install solar panels is expected to drive the growth of solar PV panels industry in ...

Half-cell PV modules are expected to hold the largest market share due to their higher efficiency, lower resistive losses, and improved shade tolerance compared to traditional full-cell modules. Their ...

Solar PV Panels Market valued at USD 197.44 Bn in 2025, is anticipated to reach USD 334.24 Bn by 2032, with a steady annual growth rate of 7.8%.

Discover the top solar panel manufacturers in 2025. Compare global leaders with US producers and explore wholesale sourcing options.

Asia Pacific Solar PV Panels Market Size and Growth 2025 to 2034 The Asia Pacific solar PV panels market size was valued at USD 101.36 billion in 2024 and is predicted to be worth around ...

A key issue is the uneven distribution of solar market growth. Most expansion has been concentrated in the

The largest wholesale market for photovoltaic panels

Asia-Pacific region, led by China, creating widening disparities between regions. ...

Resilience under pressure According to Wood Mackenzie, the top 10 photovoltaic module producers now have enough combined capacity to meet the global annual demand for new panels. ...

Solar PV Global Supply Chains - Analysis and key findings. A report by the International Energy Agency.
