Purchasing DC circuit breakers wholesale reduces production costs, giving your budget more freedom to move. Fast and comprehensive response from our support team addresses your concerns within 12 ...

This circuit breaker is designed to protect the cables located between each string of photovoltaic modules and the photovoltaic inverter against overloads and short circuits (see application diagram).

Generally speaking, a circuit breaker is a type of switch that protects us from dangerous electrical situations by automatically turning off the flow of electricity when an overload or other fault occurs.

The DC circuit breaker has super-class current-limiting performance, which can accurately protect relay protection and automatic devices from overload, short-circuit and other fault hazards. The DC circuit ...
